

# Max 4 Regressed Lens

RECESSED

TYPE  
PROJECT

## Overview

- Recessed 4 inch LED linear regressed lens
- Sleek, slender contemporary design
- Easy access to driver
- T-Grid, slot, drywall

## Ordering Format

PART NUMBER: MX4-R

Size	Lumens Direct	Lumens Indirect	CCT Available	CRI Available
4 = 4 Feet	D3 = 350 LPF		27 = 2700 Kelvins	80 = 80-85 CRI
6 = 6 Feet	D5 = 500 LPF		30 = 3000 Kelvins	90 = 90-95 CRI
8 = 8 Feet	D7 = 750 LPF		35 = 3500 Kelvins	
12 = 12 Feet	D10 = 1000 LPF		40 = 4000 Kelvins	
CL = Custom Length, add in notes			TW = Tunable White 2700-5000 Kelvins	
Optics	Mounting	Driver / Voltage	Color	Options
FWR = Frosted White Regressed	S = 9/16 Slot Grid T1 = T-Bar 9/16 T2 = T-Bar 15/16 SF = Trimless	ND 1 = Non-Dim Universal 120VAC  ND 2 = Non-Dim Universal 277VAC  ZT 1 = 0-10v dimming 120v dual 1%  ZT 2 = 0-10v dimming 277v dual 1%  LE1 = Lutron EcoSystem 1% DLC EE CCR / PWM SoftOnFadeToBlack  LE5 = Lutron EcoSystem 5% DLC EE CCR  CC = Custom Control - add in notes	W = Standard White	OS = Occupancy Sensor WH = Whip 6' EMD = Emergency Driver - Battery Backup 120-277VAC  L = L = Illuminated L Corner Section T = T= Illuminated T Section X = x = Illuminated Cross Section

## Construction & Mounting

### HOUSING

Extruded Aluminum 4 ft., 6 ft., 8 ft., and 12 ft.

### REFLECTOR

Integral powder-coated LED housing with excessive reflectivity for increased lumen output

### FINISH

Standard powder-coated colors are white. Troffer style fixtures are not limited to white, consult factory for special applications.

### OPTICS

Regressed, lay-in acrylic lens formulated for LED light sources. Lift and shift lens removal.

### MOUNTING

Our recessed fixtures are made to be mounted in slot grid, T-bar and sheetrock ceilings. See mounting detail. Other ceiling types, please consult the factory, we can accommodate many different applications.

## Electrical / Driver

- Drivers - Our drivers are specifically selected based on fixture application to ensure ultimate reliability and long life. We use only UL recognized brands of LED drivers. Our LED drivers feature HPF (high power factor), universal voltage 110 - 277 VAC and include 0-10V dimming. Please note, 277v has longer distances from power feed to power feed then 120v.
- If required, we can supply premium drivers such as Lutron, Eldoled and others upon request. Advanced control systems compliant drivers such as POE, DALI, DMX, etc. are also available, please consult factory.
- Rated life (90% survivorship) of 50,000 hours at 50° C max. ambient (and 70° C max. case) temperature. At maximum driver load: Efficiency >84%, PF>0.9, THD
- POE - We are working with Igor POE systems to either add a node into our fixtures or remote them. Based on the fixture you select, we will notify you (or you can contact the factory) to see if we can install the node or the node needs to be remote. Just add POE1 in the spec and we will advise. Please keep in mind you need to specify a complete POE control system before specifying POE1.
- Our LED drivers feature HPF (high power factor), universal voltage 110 - 277 VAC and include 0-10V dimming.
- Emergency drivers are factory installed as an option, long life, high temperature, recyclable Ni-Cad battery pack with test switch and charge indicator. EMR is minimum of 90 minutes operation to meet code.
- Whip - Six feet long, wiring RHOS/Reach Compliant, 18 gauge, 600v rated, Supplied, wired to the fixture as an option.

## LED Performance

LED Output	CCT Color Temp	Watts	Lumens	Lumens per Watt	CCT Multiplier
Low	3000	4.28 WPF	350 LPF	81	2700 = .95
Medium	3000	6.23 WPF	500 LPF	80	3000 = 1
High	3000	9.38 WPF	750 LPF	80	3500 = 1.01
Very High	3000	12.63 WPF	1000 LPF	80	4000 = 1.03

- The table above is a quick reference. When calculating loads make sure you add direct and indirect LPW to get total wattage. Please refer to photometric report for detailed information.
- Our light engines are precisely designed for optimal operation of LED assemblies.
- Our standard LED's CCT (correlated color temperature) range is 2700K to 4000K. Other CCT values are available upon request.
- We log LED bin codes for each project we supply to ensure color consistency and keep a record of those projects for future reference.
- CRI offered is 80+, and 90+ Note: on 90+ CRI use .85 multiplier
- Tunable white, warm dim and other special LED colors available.
- We design our own printed circuit boards to ensure high luminescence efficiency, low thermal resistance and long-term reliable operation.
- Light engines are easily replaced.
- We use only recognized brand LED's with 3 SDCM (standard deviation color matching) with high color consistency. 2 SDCM available upon request.
- LRP - "LED Reel Program" – LED's for printed circuit boards come on reels' like old 8mm projectors and they're sold in lots just like fabric. At Picasso Lighting, we have a program where we make sure all of your reels come from the same lot for each project. This ensures excellent color consistency in large open spaces.
- LED life is rated at 50,000 hours
- Custom Lumens Available

## Certifications & Warranties

- Limited five-year (50,000 hours) warranty on all products.
- I.C. rated fixtures are available upon request.
- Change orders may effect delivery schedule.
- All fixtures are IBEW manufactured and assembled.
- UL and CUL listed for dry and damp locations.
- DLC® is a non-profit organization whose mission is to drive efficient lighting by defining quality, facilitating thought leadership, and delivering tools and resources to the lighting market through open dialogue and collaboration. We are currently getting our products listed with DLC. Products listed, will have DLC Logo.
- Chicago Plenum products are available upon request.
- Made in the U.S.A.
